PROLIGENT™ CLOUD

Transform complex test data into **valuable insight** into your products **without the need for** additional hardware or complex installation.

Averna

PROLIGENT™ CLOUD

Proligent™ Cloud Benefits

- Get reliable performance data through simplified dashboards on products & assets.

- Protect your brand by detecting potential product issues.

- Statistical Process Control Analysis: Cpk Analysis

- Gain insight into manufacturing trends affecting your production line.

- Clear pricing without confusion or surprises.

→ ## Designed for the People that Need it

Proligent™ Cloud is designed for Operations Managers, Quality Engineers, Manufacturing Engineers and Test Engineers. This easy-to-use software solution monitors test stations and provides **valuable insight into your product line. Ready-to-use** with **Averna Launch** or **NI TestStand,** benefit from organized and detailed measurement information to make **better business decisions.**

→ ## Information to Count On

Designed for small to medium-sized manufacturing facilities, Proligent™ Cloud is ideal for design, New Product Introduction (NPI), and production. Get relevant statistics with Cpk analysis, measurement trends, unit history, performance, quality, OEE dashboards and more for a better overall understanding.
